## Working Bees

Russell's

# Benefits of BrisLETS

## Personal Development

- Confidence, mixing with others of similar attitudes who might not normally meet
- Opportunity to meet people who need your specialist interests or whose skills you need.
- Talk face to face before you need to use their services so you know they are there
- Right time, right place, right words, right delivery, can lead to all sorts of opportunities.
- Eg Jeni editing, toys for Elizabeth.

## Personal rewards

- Satisfaction of doing things for others – knowing you are appreciated
- belonging
- Earning units for things you normally can't afford eg. massage, training, holidays

## Practical

- We all need people – in emergencies, to socialise with, to ask advice, to get things done, to do things for to earn points
- Simple, online, access around the country
- Learn from, practice on, get support

## Community Spirit

- Allows you to contribute what you are passionate about or interested in to the degree you are comfortable with
- Everyone has something to contribute regardless of ability or age – matching up with someone who needs it
- Very simple most basic things are often the most needed
- Helps you evolve ideas and businesses by feedback
- Helps keep in touch as people move physically or with their lives
