I have been a member of another LETS system: _____

I was introduced to LETS by : _____

I am willing to provide the following offers:

My wants are:

I have read, and agree to abide by, the BrisLETS Terms
and Conditions (see brislets.com to view this)

Signed: _____

Date: ___/___/___

Do you want to sell your goods, skills, and services *without using money*?

Then BrisLETS is for YOU!

BrisLETS is open to all people, regardless of their economic and social background or stage in life.

Because you don't have to barter with the person you trade with, trading in BrisLETS is similar to normal shopping. The system also gives us a way to create community as we trade and get to know each other.

A trade can be getting someone to look after your house and pets while you are away, receiving IT support or alternative therapies for your health. Ask for what you want and need and see if someone in the community can help you.

This is all very easy to do through our online database. You can make changes to your offers, according to your present needs.

For example, if you offer vegetable seedlings you can adjust your offer according to their availability. In this way BrisLETS acts like an agent that gets you jobs whenever you are available to do them. If you are too busy to help someone, simply say so. There is no pressure to work when you don't want to.

Spending BrisLETS units is fun as it allows you to buy things normally out of reach, widening your options and making things happen faster for you!

Also, it is rewarding to contribute to the community, by making the opportunity for someone else to get their need met resulting in wins for everyone!

There are plenty of lovely, interesting people to meet in BrisLETS and trades to be had, so why not join today!

For more information, go to brislets.com

BrisLETS

Community Exchange Inc.

Trading Goods and Services Without Cash!

- ***Earn*** units easily by assisting with a skill, or selling unwanted goods!
- ***Spend*** units on home maintenance, tool hire, gardening, pet care, massage, cleaning, catering, accommodation when you travel, childcare and dozens of other services!
- ***Trade*** knowing someone else might need what you have, or someone else might have what you need!
 - ***Start*** trading today by joining the community for \$20!
- ***World-wide community*** – who could you travel to see overseas using LETS

What is BrisLETS?

BrisLETS is a local community trading system. Members trade goods and services in 'Units', saving their money for essentials.

How LETS trading works

When you join, you will get private access to the online, password-protected database to enable you to view LETS members' listings of offers and wants with their contact details.

To trade, contact a member and ask them if they can provide a service you need. If they can, agree to a fee in our LETS currency, called Units. Once the trade is completed, the seller enters the transaction into the online system and their account is credited and the buyer's debited. Electronic receipts are then sent for confirmation.

Who runs BrisLETS?

BrisLETS is a non-profit organisation run by a management committee elected at the AGM.

Contact us today: secretary@brislets.com

President's Mob: 0401 198 829

Postal: PO Box 851, Samford Qld 4520

Website: brislets.com

Facebook: www.facebook.com/groups/brislets

How can I benefit?

Whatever you wish to trade
someone may want it;

Whatever you need,
someone may have it

You can make new friends
and build a sense of community!

How do I start LETS trading?

Just call someone and ask for their service! It doesn't matter if your LETS account goes into debit, as long as you are willing to provide services to other members later to bring your account back into balance. There is no interest on negative balances like with dollars and it is the best way to start your trading.

How much do I charge?

As a general guide, whatever you would normally charge in dollars per hour, you charge in units per hour. Hourly rates can vary, so the two people trading, must first agree on a unit rate, how long it should take, if travel time, fuel or material cost (in dollars) is needed for the job, and how the person you are providing the service to, will pay that \$ cost. No one should lose out using LETS.
