NewsLETS is BrisLETS' monthly roundup of events, achievements and plans.

## Members Profile

Introducing Michelle. Some of you might have met Michelle at the last trading day at the Peace Hall. She really enjoyed the story telling on Chinese Astrology that day. She is looking forward to meeting you on Zoom on Sunday!

Michelle was involved in the Caboolture LETS - a smaller area, trading days held monthly at different members houses, sometimes involving the community garden, it was very active and she misses the social interaction. Hence why Michelle chose to join BrisLETS.

Michelle has enjoyed connecting with members on the northside, including Anne, and getting Sally to put henna in her hair. One of her strengths is helping members see the opportunities in LETS, and will be starting to ring members, like Liz did, to engage members in thinking of ways to trade, helping with questions or get answers from others if she can't help.

When Michelle heard about LETS at a Maleny Environmental Day stall prior to joining Caboolture LETS, it took her a long time to get her head around the concept. A friend hated cleaning, was an unofficial florist (Michelle loves flowers), so the friend said if you do my cleaning in LETS, I will give you flowers in LETS, and many opportunities snow balled from there.

One Caboolture member only hosted trading days, earning the 50 units, but sold toasties etc for units during the days while they contributed a great space for the trading and socialising etc.

Keeping it simple, and easy is the key. During a pet sitting 3 week stint that earns her cash, Michelle said to the owner, I will weed the garden (beautiful but the owner had lost interest in it), if I can have the beautiful pots.

Key concept in LETS - Doing something that benefits the other person, while getting you something you want!

So what is simple and easy for you, but could get you what you want?

**Moving forward**

People are attracted and then motivated by the stories they hear.

Members loved Josephines and then Rosies story telling sessions. I loved Anne's stories during the Covid 19 - words can make us laugh, at ourselves and get us to do things that if someone told us to do it, we would react against.

We have the Vision Statement, and the upgraded Brislets.com with more space so we can do blogs to make it more appealing and user friendly for potential members, and a members area.

We have a new FaceBook page as well the private members group and public trading group.

To make the FaceBook page work though, it needs lots of activity on it - we need stories to attract the members of other like minded groups to like and share our page with their friends, and become members.

Our demographic is the wider Brisbane Area, from Caboolture, to the Bay Islands, to Logan, out to Samford etc. Members are 16 and over, but memberships include named family or couple members.

We have members with connections to such wide ranging, diverse grassroots networks. At this present time, there are awesome potentials and opportunities - we just need people to share stories to move potential and current members to take action.

We are in a time unlike any in history - we can use FaceBook to find other potential members, when current members like and share the page.

So can you share how you felt when you first found LETS - what excited you, what wonderful trades or very timely trades you have made, friendships that have developed? If you have photos, that would be great too.

We need to put something on the page basically daily to get the momentum going. Kelly BLCE0041 is the page admin, who you need to send the story to. Or if you have a story but need help writing it or sending it to Kelly, contact Jessie BLCE1422. We also need stories for the newsletter, and brislets.com.
